

ARKANSAS DEPARTMENT OF ENVIRONMENTAL QUALITY

REGIONAL SOLID WASTE PLAN

Regional Solid Waste Management District	<u>Reporting Period</u> September 1, 2016 – August 31, 2017
--	--

A. COLLECTION

1. Weekly curbside/roadside and/or drop-off collection services should be made available for all household solid waste for residential dwellings within the state by city, county or private collection.
- a. Has the District achieved this state goal? Yes, there are 21 private haulers that offer residential household curbside collection.
 - b. If not, what is the District's target date to achieve this state goal?
 - c. What actions will you implement to achieve your target date?

2. A minimum of semi-monthly yard waste collection services should be provided for all residential dwelling within the state. Collected yard wastes must be managed at a Class CY compost facility or an alternative approved pursuant to Ark. Code Ann. §8-6-220 (b). Each district should include the schedule of implementation within its solid waste plan, beginning with the larger cities.
- a. Has the District achieved this state goal? Yes, currently there is free residential drop off of yard debris at the Saline County Republic Services Landfill that is paid for through the District. The District is working with Republic Services to take over the yard debris program.
 - b. What is the District's target date to achieve state goal?
 - c. What actions will you implement to achieve your target date?
 - d. If completed, attach your schedule of implementation.

3. Collection services or a suitable alternative (transfer stations or community based drop-off locations) for bulky items should be made available for all residential dwellings within the state. Implementation of the program should be included in each district's plan and be based upon population.
- a. Has the District achieved this state goal? Yes, currently the District offers two coupons per year per household for \$10.00 for Saline County residents. The purpose of the coupon program is for residents to use the coupons for items that their regular trash hauler can't pick up. The District also offers special recycling collection events throughout the year for residents.
 - b. If not, what is the District's target date to achieve state goal?
 - c. What actions will you implement to achieve your target date?

B. DISPOSAL

1. Evaluate the disposal capacity of permitted landfills. Establish a seven-year minimum of disposal capacity for each district. If a district has no existing Class 1 landfill or has a facility with less than seven years' capacity, it can partner with an adjoining district or neighboring state to offer low cost disposal for their residents.

- a. How much disposal capacity is available in your District? The Republic Services Landfill has about 60 years before reaching capacity.
- b. If disposal capacity is under 7 years, what is the District's target date to achieve this state goal?
- c. What actions will you implement to achieve your target date?

2. Evaluate the waste stream in the geographical area of each district through an annual waste audit. Develop a business plan for the diversion and recycling of waste based on the audit results.

- a. Has the District achieved this state goal? There is free recycling offered at the Saline County Republic Services Landfill and there are two waste haulers in Saline County that offer curbside recycling.
- b. What is the District's target date to achieve this state goal?
- c. What actions will you implement to achieve your target date?

3. Require districts to establish a household hazardous waste program (either permanent sites or collection events) within their boundaries. This action item is currently mandated by Ark. Code Ann. §8-6-714 (a)(1)(B)(ii) for districts that charge up to \$2 per ton under the authority of that same provision and is a goal for districts that do not access this fee.

- a. Does your District access the \$2 fee under Ark. Code Ann. §8-6-714? No
- b. Has the District achieved this state goal or mandate? Yes, the District provides a once year drop off of Household Hazardous Waste. We partner with Rineco to set-up and process all the materials that are brought in.
- c. What is the District's target date to achieve this state goal or mandate?
- d. What actions will you implement to achieve your target date?

C. RECYCLING

1. All municipal waste recycling programs should evaluate the economic viability of accepting the following items: paper products including news print, cardboard, white office paper, mixed paper, magazines, junk mail catalogs, phone books, boxboard and chipboard; metals, both steel and aluminum cans; plastic - #1PET, #2 HDPE and others where possible; clear and colored glass (no window glass, glass ceramics, light bulbs or ovenware); and white goods (large residential appliances).
 - a. How many items does each of your recycling programs accept? Attach an addendum listing District recycling drop-off locations with the types of items accepted at each. Please see attached the list of items accepted at the Saline County Republic Services Landfill.
 - b. What recyclable materials has the District evaluated for accepting in this reporting period? There have been no additional items evaluated for this reporting period.
 - c. What recyclable materials has the District started accepting this reporting period that it didn't accept before this reporting period?

2. All incorporated cities with a population of 5,000 or more will offer residential curbside recycling. Communities of this size must work with the districts to make available convenient opportunities for commercial and multi-family recycling. A minimum of semimonthly collection services or a suitable alternative system (e.g. transfer stations) for recyclable material collection should be made available for all residential dwellings within the state. Cities should be required to implement a curbside recycling program, beginning with the most populated cities and eventually including cities of all sizes. The implementation schedule should become part of each districts plan.
 - a. Has the District achieved any part of this state goal? Yes, there are two private waste haulers that offer semi-monthly curbside recycling in all cities of Saline County.
 - b. How many cities in your district offer residential curbside recycling? 8
 - c. What is the District's target date to achieve the state goal listed above (residential curbside recycling, commercial and multi-family recycling, and semimonthly collection services for recyclable material collection)?
 - d. What action will you implement to achieve your target date?
 - e. Attach an implementation schedule.

3. Districts will encourage the development and implementation of public venue/special event recycling programs. Districts will offer guidance for best management practices, education assistance and information, along with collection and marketing strategies for public venue facilities and special events. Districts will discourage use of non-recyclable items like Styrofoam cups.
 - a. Has the District achieved any part of this state goal? Yes, the District provides special recycling events in the Spring and the fall for residents.
 - b. What is the District's target date to achieve this state goal?
 - c. What actions will you implement to achieve your target date?

D. SPECIAL RECOVERABLE MATERIALS

1. Encourage districts to exercise due diligence in the selection, use and operation of recycling and disposal facilities.
 - a. Has the District achieved any part of this state goal? Yes, the District works with ESCO for electronic recycling. The District also works with a contractor to collect recycling materials from 3 schools and takes all materials that is collected from those schools to Natural State.
 - b. What is the District's target date to achieve this state goal?
 - c. What action will you implement to achieve your target date?

2. Develop an illegal dump program that provides additional resources to identify and remediate illegal dumps, while providing education and enforcement to prevent future dumping.
 - a. Does the District have an illegal dump program? Yes.
 - b. Explain the education and enforcement instituted by the District to prevent future dumping. The District employs one full time IDCO that works with the community on proper disposal of materials and illegal burning in the County.
 - c. Explain the additional resources the District provides to identify and remediate illegal dumps. The District has a tip line for Saline County residents to report any illegal dumping and it can be anonymous. On the District website there is a form that can be submitted to report as well. We partner with the Saline County Road Department for clean-ups that are considered county roads. We also partner with the Environmental Officer that is employed with the Sheriff's office for assistance in certain circumstances.
 - d. Does the District employ or partner with a county within the District that employs an illegal dumps control officer? We partner with the Environmental Officer that is employed with the Saline County Sheriff's office. The county doesn't employ an IDCO.

E. EDUCATION AND PUBLIC PARTICIPATION

1. Every regional solid waste management district should have an updated, accurate website (or webpages on a partner's website) that provides citizens easy-to-use access to information about recycling, composting, waste reduction and waste management services in their communities.

Information should include which materials are accepted, days and hours of operation, physical location, how materials are collected/accepted and contact information for further questions. The districts are to ensure that city and county recycling/diversion programs are financially sustainable and are using best management practices.

- a. Does the district have a website, and if so, what is the address? Yes,
www.recyclesaline.org
- b. Does the district have a webpage on a partner's website, and if so, what is the address?
No
- c. If no to both questions above, what is the District's target date to achieve this mandate?

2. Districts should develop partnerships within communities to improve information dissemination. Solid waste districts and individual waste management entities (cities, counties, designated recycling collection centers, etc.) should use social media to increase awareness of waste management methods and opportunities.

- a. List the methods in which you disseminate information to the public.

Social Media, local newspaper, website, committee meetings, Benton and Bryant Chamber of Commerce, constant contact email program.

- b. List partnerships formed with the District.

Saline County, City of Benton, City of Haskell, City of Alexander, City of Bryant, City of Shannon Hills, City of Bauxite, Benton Chamber of Commerce, Bryant Chamber of Commerce, Keep Bryant Beautiful, Benton Matters, Benton School District, Bryant School District, Harmony Grove School District, Bauxite School District.

- c. List examples of social media utilized.

Facebook

F. EXECUTIVE SUMMARY

1. Provide a brief summary of other goals the District would like to implement over the next 5 years.

The District would like to implement a new process for the yard debris program.

Provide more options for residents to dispose of Electronic Waste.

2. Provide a listing of programs initiated previously that are not listed in goals or mandates.
