Mr. Roger Lawrence
Chief
Solid Waste Division
ADEQ
5301 Northshore Drive
North Little Rock, AR 72118-5317

Dear Mr. Lawrence:

Attached is the 2011 Update to the Ten Year Solid Waste Management Plan for the Ozark Mountain Solid Waste District. Our Board of Directors reviewed and approved the plan at their May 10, 2011 meeting.

Please contact me if you need further information.

Sincerely,

2011 Update to
Ten Year Solid Waste Management Plan for
the Ozark Mountain Solid Waste District

Part Two – Chapter One – Activities Analysis 2011

Revised June 2011

Meeting the Minimum Requirements for Regional Solid Waste Management Plans

as Required by Act 1376 of 2001

Section 2.101 – Overview

At the Board of Directors meeting on February 8, 2011 the Board changed the name of the organization to Ozark Mountain Solid Waste District (OMSWD). A resolution changing the name was approved at the April 12, 2011 meeting. A copy of the resolution is attached labeled Attachment 1.

Section 2.202 Executive Summary

OMSWD will continue to permit new cells for the disposal of its citizen's solid waste, for the life of the landfill.

At the present time, OMSWD has no plans to expand services.

Section 2.203 Goals

OMSWD is in the process of getting a new area permitted that will extend capacity for at least 10 years or more.

OMSWD does not currently have a full time illegal dump officer. When the District receives illegal dump complaints, referrals are made to city police and county sheriff's office. Refuse is examined for identification. When violators are identified, they are given a time limit to clean up the dump, and submit weight tickets verifying proper disposal. Cases are brought to court in provable instances of illegal dumping.

The burdens of dump clean ups most often falls on the shoulders of the landowners, cities, and the counties. Large-scale illegal dump clean ups, one specifically targeting an entire county road, have been successful in alerting the public of dumping, its hazards and consequences. Funding for illegal dumps clean up is desperately needed.

The District will make referrals of any reported open burning to law enforcement. The District aspires to expand waste diversion options, standards, and services – District-wide, with the resolve they will someday, eradicate open burning.

Currently household batteries are part of the solid waste stream.

Fluorescent bulbs can be disposed of in any of the Household Hazardous Waste Trailers are located in each county within the District. The bulbs that contain more than 2/10 milligrams per liter of leachable mercury do not go into the landfill. They are diverted to the hazardous waste collection centers throughout the District.

Yard waste collection varies county-by-county. With permission from local authorities most citizens burn yard debris. Some entities provide composting. The minimal amount of yard debris that does become landfill is put into a Class 1 Subtitle D cell.

Although public entities within the District do provide storm debris assistance, the District does not shred or grind tree limbs, storm or other disaster debris. The District will always provide assistance to FEMA or the State when dealing with storm debris issues.

Section 2.204 Goal Areas – Objectives

Citizens within OMSWD would greatly benefit from educational outreach concerning the proper disposal of fluorescent bulbs. Informing the many people who don't know where to go with their bulbs will positively impact the diversion of fluorescent bulbs.

Cities and Counties within OMSWD should be encouraged to provide yard waste diversion options to their citizens. Many entities already have robust yard debris programs that not only provide disposal options, but rich by-products for citizen's use. Highlighting these success stories, seeking stakeholder support for expanding similar programs District-wide, will provide more waste diversion options, and contribute to the life of the District's landfill.

Section 2.102 Organization and Administration

A. District

1. Organizational Hierarchy

The Ozark Mountain Solid Waste District Board contracts with Via Recyclables, LLC. for administrative services relating to the actives of the Solid Waste Management District. The administrative hierarchy of the Board and Via Recyclables is demonstrated as follows:

Ozark Mountain Solid Waste District Board
Ownership, Operation and Administration of Nabors Landfill and Hauling in Baxter County
Administrative Contract with Via Recyclables, LLC Melinda Caldwell, Executive Director
Jason Kincade Operations Manager Nabors Landfill and Hauling
Accounting and Administrative Support Staff

2. The District's Role in Program Development and Implementation

The Ozark Mountain Solid Waste District is the keystone to progress in the development and implementation of solid waste management programs and activities for the six counties served, for the cities and communities within those counties, and for the citizens of the District. The District Board holds monthly meetings to discuss progress, to monitor current projects, and to evaluate and consider new alternatives, proposals and programs.

Section 2.104 Demographics

B. Population

1. County Populations in the District

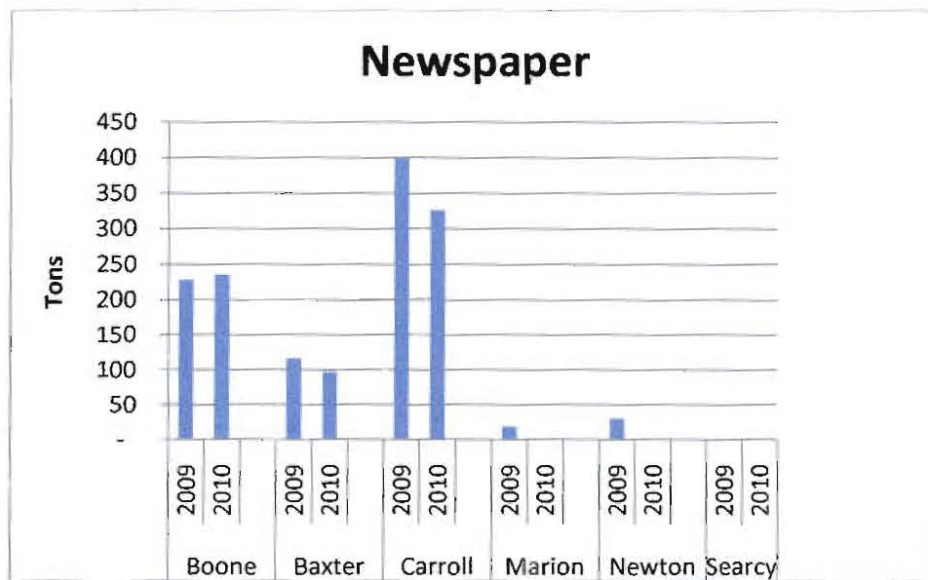

According to the US Census Bureau Quick Facts available at their webpage, the 2010 census population for the six counties in our district totaled 139,040.

County	2000 Census	2010 Census	% Change
Baxter	38,386	41,513	8.15%
Boone	33,948	36,903	8.70%
Carroll	25,357	27,446	8.24%
Marion	16,140	16,653	3.18%
Newton	8,608	8,330	-3.23%
Searcy	8,261	8,195	-0.80%
Total	130,700	139,040	6.38%

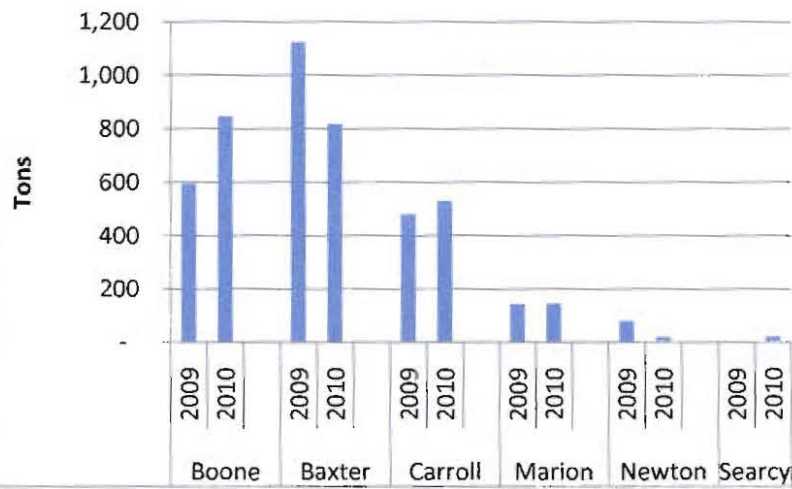

2. Population Changes in the Past 10 Years

The population increase for the 10 years from 2000 to 2010 is estimated at 6.38% 8,340. This is less than the state average of 9.1% for the same time period.

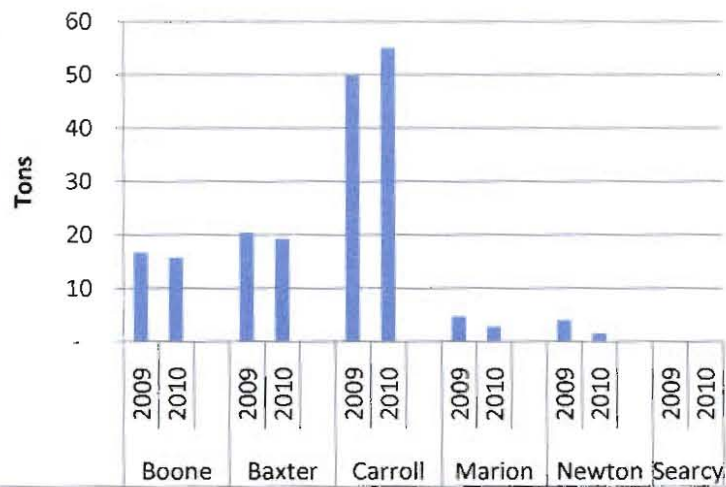

E. Recyclables Volumes by County

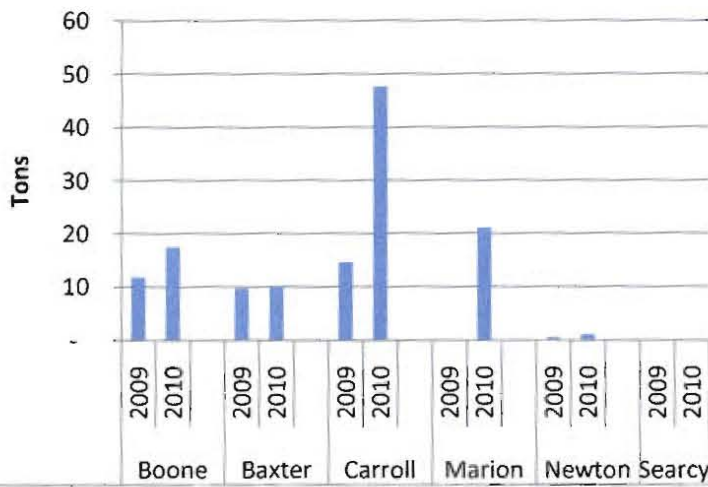

Cardboard

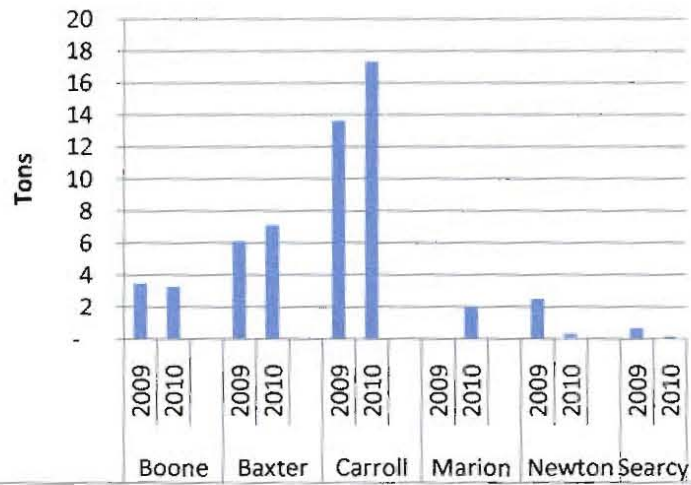

PET

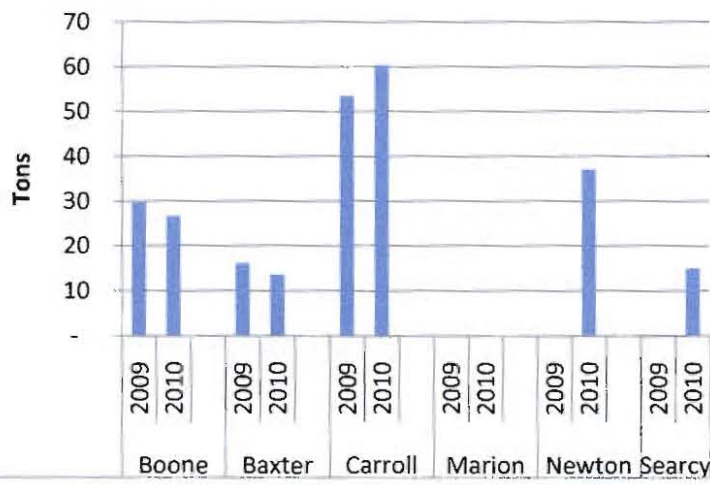

HDPE

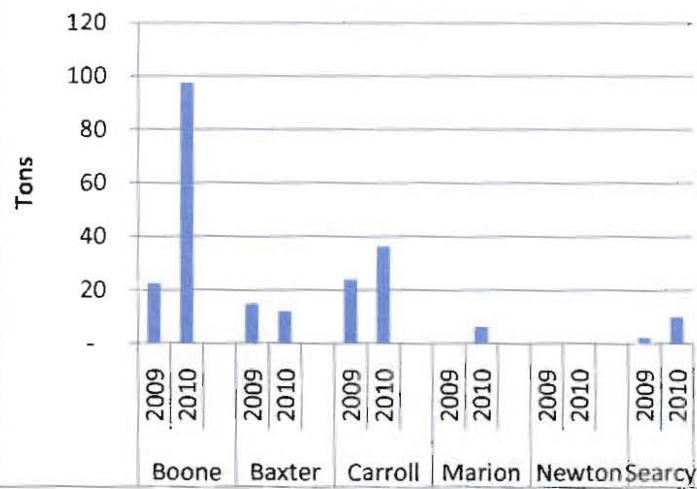

Aluminum

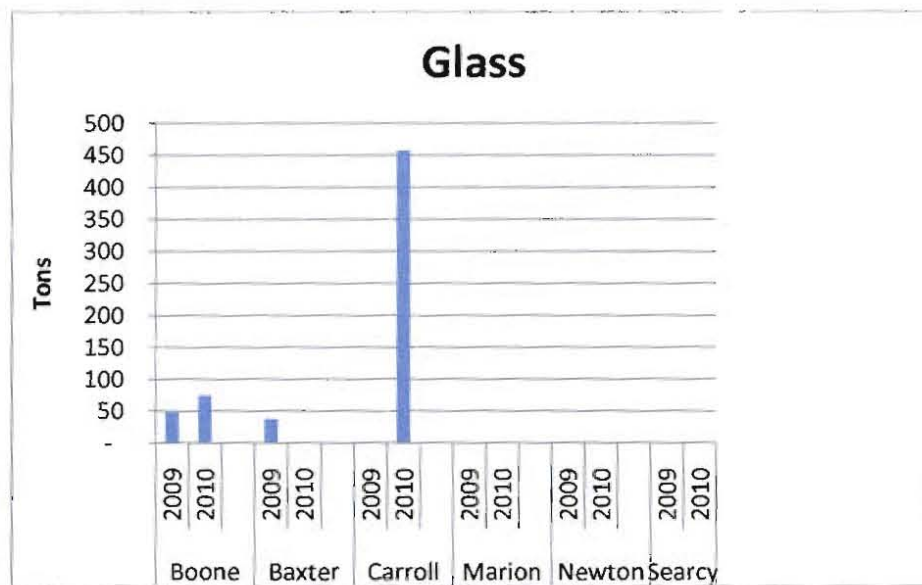

Ferrous Metals

Electronic Waste

1. Waste Hauler Permits

If the applicant meets the requirements and agrees to abide by the Board minimum hauling requirements as detailed on the application, the applicant files an annual Waste hauler's License Fee of \$100 for the first two trucks, plus \$50 for each additional truck to be operated by his company. If all requirements are met and the hauler agrees to operate according to the standards of the District and the State and to abide by all regulations and laws, then a license is issued by the Board.

2. Oversight of Active Licensees

The district does not currently conduct inspections for compliance of waste haulers. The waste haulers permitting process under the District's Practices and Procedures does make provisions for non-renewal of the license for certain, severe elements of non-compliance with District and State standards and regulations, but to date there have been no revocations or suspensions of any hauler's license.

3. The District's Licensing Policy and List of Licensed Haulers

The following is a list of solid waste collectors and/or haulers licensed in the Ozark Mountain Solid Waste District for 2010, as well as contact information.

2. Tons of Solid Waste Generated and Landfilled in the District Last Year

In the 12-month period between January 1, 2010 and December 31, 2010, solid waste haulers brought 71,628 tons of solid waste to NABORS Landfill in Baxter County, which is 14 tons less than 2009.

Page 32 Amended

Page 38 Amended

Section 2.205 Administrative

The district initiated a new contract for the management of its programs in August 2009. Via Recyclables, LLC is now the administrative contractor. Other regulations, ordinances, policies and bylaws, organizational charts, and maps have not changed, other than what is reported in this document. The district's administrative procedures have not changed other than to authorize new signatories for the checking account. Recycling program reports including current Recycling Center Surveys, Recycling Grant Progress Reports, EWEN and Waste Tire Reports are all on file with ADEQ.

Section 2.105 A. Waste Tire Services

1. District Role and Programs for Waste Tire Management Services

On July 1, 2021, NWARSWMD entered into a one year contract, with an option to renew for three consecutive one –year terms, with Champlin Tire Recycling, Inc. of Concordia, Kansas.

Champlin Tire takes delivery of, recycles, and/or processes all passenger, light truck and truck waste tires collected at the six waste tire collection centers in the Ozark Mountain Solid Waste District. Champlin Tire provides both on call and scheduled pick up services, at which point tires are trans-loaded to Champlin trailers. Champlin Tire repurposes District tires through shredding to playground mulch, bench and picnic table production.

Each Waste Tire Collection Center within the District is provided District tracking sheets to track all tires collected both program tires, and all non-fee, and specialty tires. Tire collection centers submit completed forms and fee payments collected to District administration on a monthly basis. District tracking records provide data for the District to compare its cumulative to the Champlin Tire BOL s and reports, submitted monthly.

OMSWD has more strongly enforced the collection of both non-fee and non-fee specialty tire fees across the District. This added income helps cover the disposal cost of District tires.

2. Needs and Corrective Measures

OMSWD's current collection centers, tracking reports, and service provider is working very well at handling District tires efficiently and smoothly. The responsible re-purposing of tires walks in tandem step with OMSWD'S commitment to responsible waste diversion. At present, there are no corrective measures necessary on the waste tire program.

2010 Waste Tire Count

	Jan Mar 2010	Apr Jun 2010	Jul Sept 2010	Oct Dec 2010	Total 2010
Auto	31975	81515	38797	43826	196113
Truck	629	4033	2158	2359	9179
Other	176	1360	608	5722	7866
Total	32780	86908	41563	51907	213158

V. Waste Tire Processing Facilities

The District no longer processes tires. The fate of tire bales staged at the DAMCO site has yet to be determined.

2. Active Programs Utilized by the District

The following is a list of programs in which the District is an active member, or in which the District or members of the staff participate to some degree.

Arkansas Recycling Coalition
Arkansas Environmental Federation
Solid Waste Association of North America (SWANA) – Arkansas Chapter
Container Recycling Institute
Hometown Health Improvement Project
Recycling Committee for the “Envision Harrison” organization
Illegal Dumps Corrective Action Program – ADEQ
Waste Tire Abatement Program – ADEQ
Waste Tire Amnesty Program – ADEQ
Teacher Education Workshops – ADEQ
Arkansas Environmental Educators Association

3. District Programs

Members of the District’s staff have sponsored a number of recycling-related projects, most notably a vermiculture project that was introduced through various school systems; utilizing earthworms to render organic wastes into usable, high-quality compost. In one school’s project, the vermiculture program was integrated into a multi-disciplined project which included recycling, science, math, business, and computer education.

In 2007 the District set up web pages to provide general solid waste management information, news relating to solid waste management, documents and materials to assist public information, efforts and promotional information about District activities and undertakings. Because of management changes, the webpage is currently offline.

In the 2010 recycling grant cycle, OMSWD was awarded a grant for the development of a new website. The updated website will provide county specific information concerning services, locations, and solid waste diversion information. The District sees this as a powerful tool in reaching the citizens of each county. Targeted launch of the website is midsummer, 2011

Board of Directors

Northwest Arkansas Regional Solid Waste Management District

Harrison, AR

We have compiled the accompanying balance sheet and statement of activities by class arising from cash transactions of the Northwest Arkansas Regional Solid Waste Management District., as of April 30, 2011. We have not audited or reviewed the financial statements, and, accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with the cash basis of accounting.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the cash basis of accounting and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

Management has elected to omit substantially all of the disclosures and the statement of cash flows required by generally accepted accounting principles. If the omitted disclosures and statement of cash flows were included in the financial statements, they might influence the user's conclusions about the company's financial position. Accordingly, this financial statement is not designed for those who are not informed about such matters.

RESOLUTION

OF

NORTHWEST ARKANSAS REGIONAL SOLID WASTE MANAGEMENT DISTRICT TO CHANGE THE NAME OF THE DISTRICT

I, David L. Osmon the undersigned, hereby certify that I am the Secretary of the Northwest Arkansas Regional Solid Waste Management District created by Arkansas Code 8-6-701 et. Sec of the laws of the State of Arkansas; that at a meeting of the Board of Directors of said District duly called and held on February 8, 2011 the following Resolution was adopted, to-wit:

"BE IT RESOLVED that the name of the District by and it is hereby changed from Northwest Arkansas Regional Solid Waste Management District to Ozark Mountain Solid Waste District. All contracts, obligations, property, cash or benefits shall remain the property of the District. Any renewals shall be in the new name.

IN WITNESS WHEREOF I have set my hand this 8th day of February, 2011.

Secretary
