Subject: Investigatng C&H Pond Problems

Sirs:

Simple enough. If you pretend something isn't there; if you take a picture to prove it and keep the lens cap on; if you don't want to see it and close your eyes- ***That doesn't mean it's not there!***

What is all this pretense of blindness costing the taxpayer? I know specifically that I have six friends from California (where I reside) that planned to spend two weeks floating the Buffalo, stopping only to use the ATM machines and countersign traveller's checks. They became aware of the ***swine excrement*** seeping into the Buffalo River (it's no secret) and are now rafting the Colorado River, spending money there. Simple enough.

As my brother says:

My ancestral family homesteaded this property, The May Farmstead and it is listed on the Department of Interior as a historical site.

My family and I fully support the Buffalo River Alliance and it's call for an effective test regimen resulting in a fair investigation of the C&H CAFO.
