Subject: Investigatng C&H Pond Problems

This, like so many other things in our world today, stinks to high heaven! That one family should endanger the lives, livelihoods, and the National treasure that is the buffalo river, is so very, very wrong on ALL COUNTS! This treasure belongs to ALL americans, but is an especially dear place to us arkies... I have so many great memories of many camping trips on the buffalo, that I just can't imagine the greed and selfishness that is threatening to destroy this most awesome natural space... Not only that, but the less than 10 people on this "farm", should not take precedence over the lives of those whose families helped settle this area, or that work in the relatively few jobs (mostly to do with supporting the tourist millions the river brings in), or the millions of dollars in revenue in two of the poorest counties in arkansas. I can't even fathom that kind of greed and uncharitable attitude that some humans have for others.....it's time governor to put a stop to this travesty before we permanently ruin a beautiful treasure called The Buffalo River!!!!

Sincerely, LaDonna Powell, very concerned citizen.
