C&H Hog Farm Pond Integrity Evaluation

DAILY UPDATES

Thursday, September 22, 2016

The borehole was secured at the end of drilling activities Wednesday. Drilling activities resumed at C&H Hog Farms on Thursday, September 22 at 7:00 a.m. Work ended for the day about 5:00 p.m. with the drilling having reached a depth of 98 feet. Activities were conducted in accordance with the accepted Drilling Study Work Plan. Work is expected to resume early Friday morning.

Samples were collected and split in accordance with the Work Plan.
