Subject: Continuing Planning Process & Antidegradation Implementation Methodology

Importance: Normal

Dear Jacob Harper,

One of the best things about living in Arkansas is the delicious and excellent drinking water. I've visited plenty of towns where we've had to purchase bottled water because the tap water was unfit to use for drinking or cooking. Please do whatever you can to protect this valuable resource.

I urge DEQ to protect the streams and lakes my fellow Arkansans and I use for drinking water, wildlife watching, fishing, swimming, and boating. Please be sure that the CPP and AIM:

-Protect high quality streams in our state and national parks, wildlife refuges, and wilderness areas from new pollution.

-Properly establish protected baseline water quality through testing and data analysis.

-Account for non-point sources of pollution when making point source permitting decisions.

Further, I support the the comments submitted by Ozark Water Watch, Arkansas Public Policy Panel, and their partners.

Thank you for your consideration.

Sincerely,

Mrs. Colleen Vollman
