---

Dear Jacob Harper,

Our lives depend on clean air and water!

I urge DEQ to protect the streams and lakes my fellow Arkansans and I use for drinking water, wildlife watching, fishing, swimming, and boating. Please be sure that the CPP and AIM:

- Protect high quality streams in our state and national parks, wildlife refuges, and wilderness areas from new pollution.
- Properly establish protected baseline water quality through testing and data analysis.
- Account for non-point sources of pollution when making point source permitting decisions.

I support the the comments submitted by Ozark Water Watch, Arkansas Public Policy Panel, and their partners. And I hope that more can be done to help educate the people of Arkansas how lucky we are to have this precious resource and what they can do to help protect our water.

Thank you for your consideration.

Sincerely,  
Ms Katherine Lincourt
