Instruction for Notice of Intent (NOI)

NPDES GENERAL PERMIT ARG250000
Non-contact Cooling Water, Cooling Tower Blowdown, and Boiler Blowdown

The attached form can be used by all persons desiring coverage under NPDES General Permit ARG250000 (for Non-contact cooling water, cooling tower blowdown, and boiler blowdown). The form should be completed and submitted to NPDES Section of the Water Division no later than thirty (30) days prior to the date coverage is desired.

In accordance with the Arkansas Pollution Control and Ecology Commission (APCEC) Regulation No. 9, a permit fee of $200 must accompany this Notice of Intent at the time of submission. Failure to remit the required fee may be grounds for the Director to deny coverage under this general permit and require the owner or operator to apply for an individual permit.

Be sure to read the information regarding Permit No. ARG250000 on the Department’s web site at http://adeqweb/water/branch_permits/general_permits/default.htm. It describes what constitutes coverage under this permit, effluent requirements, discharge limitations, and other standard conditions that are applicable to this permit.

To determine which outfall applies to your discharge either see plates and tables in Appendix A of APCEC Regulation No. 2 at the following web site for eco-region. The outfall number is related to the eco-region. Outfall number may be obtained from the ARG250000 permit.

This Notice of Intent must be signed by a person authorized under the provisions of state and federal law, and who should be familiar with the provisions of 40 CFR 122.22 pertaining to signatory authority. Be sure to read the Certification.

If you have any questions concerning the ARG250000 permit information or Notice of Intent, please contact the NPDES Branch of the Water Division at (501) 682-0623.

REMEMBER THE FOLLOWING:

1. The Notice of Intent must be complete. Do not leave any question blank; use "NA" if a question is not applicable.
2. A $200.00 check or money order must accompany the Notice of Intent at the time of submission. Notice of Coverage (NOC) will not be issued until payment has been received by ADEQ.
3. A site map showing the location of the discharge points must be attached
4. Read and sign the Certification.
5. MSDS Sheets for Additives.

Return the completed forms to:
Arkansas Department of Environmental Quality
Permits Branch, Water Division
5301 Northshore Drive
North Little Rock, AR 72118

Or by electronic mail to: Water.permit.application@adeq.state.ar.us (Complete documents must be submitted in .pdf format (e.g. NOI, site map, and/or SWPPP)
INSTRUCTIONS

I. How to Determine Latitude and Longitude:

If a physical address is known go to www.terraserver-usa.com and proceed with the following steps:
1. Select Advanced Find
2. Select Address
3. Input address
4. Click on Aerial Photo
5. Click on the Info link at the top of the page
6. Note the Latitude and Longitude are in Decimal Coordinates.
7. Go to www.geology.enr.state.nc.us/gis/latlon.html to convert coordinates to Degrees, Minutes, and Seconds.

NOTE: If a physical address does not exist you may find the coordinates in the Legal Description of the property.

II. How to Determine the Accuracy, Method, Datum, Scale, and Description for the Facility/Outfall Latitude and Longitude:

Horizontal **Accuracy** Measure – This indicates the accuracy, in meters, of the latitude/longitude location, or how close the specific latitude/longitude location is guaranteed to be to the real-world location. It is typically a function of the method used to obtain the latitude/longitude.

Horizontal Collection **Method** - The text that describes the method used to determine the latitude and longitude coordinates for a point on the earth.

III. How to Determine your Hydrologic Basin Code for the Facility/Outfall:

1. Locate the county of your facility on the map on Page 4.
2. Find the numbered segment overlaying the county. For example 2C overlays most of Saline County.
3. Find the Eight Digit Hydrologic Basin Code located inside the numbered segment.

IV. How to Determine your Stream Segment for the Facility/Outfall:

1. Locate the county of your facility on the map on Page 4.
2. Find the numbered Stream Segment overlaying the county. For example 2C overlays most of Saline County.
3. 2C would be the Stream Segment for any facility located within that segment.

V. How to Determine your Ultimate Receiving Waters:

1. Locate the county of your facility on the map on Page 4.
2. Find the numbered segment overlaying the county. For example 2C overlays most of Saline County.
3. Match the number from the segment to one of the numbered Ultimate Receiving Waters. For example: A facility located in Western Saline County is in segment 2C. The “2” determines that the Ultimate Receiving Water for the project is the Ouachita River.

VI. Signatory Requirements:

The information contained in this form must be certified by a responsible official as defined in the “signatory requirements for permit applications” (40 CFR 122.22).

Responsible official is defined as follows:
- Corporation, a principal officer of at least the level of vice president, treasurer
- Partnership, a general partner
- Sole proprietorship: the proprietor/owner
- Municipal, state, federal, or other public facility: principal executive officer, or ranking elected official

Disclosure Statements:
Arkansas Code Annotated Section 8-1-106 requires that all applicants for the issuance or transfer of any permit, license, certification or operational authority issued by the Arkansas Department of Environmental Quality (ADEQ) file a disclosure statement with their applications. The filing of a disclosure statement is mandatory. No application can be considered complete without one. You must submit a new disclosure statement even if you have one on file with the Department. The form may be obtained from ADEQ web site at: http://www.adeq.state.ar.us/disclosure_stmt.pdf.

VII. EFFLUENT CHARACTERISTICS:

A. Existing Source- Provide measurements for the parameters listed in the table below.
B. New Discharges- Provide estimates for the parameters listed in the table below.
