START HERE: Does the water generated from the dredging operations return to the dredge pond?

Yes

Does industrial stormwater, process water or any other water flow into or otherwise discharge into the dredge pond? (This exclude direct rainwater)

No

No additional permits or limitations beyond those in the permit exist for the dredge pond.

Yes

Additional permits are required for discharges to the dredge pond. Please contact the water division.

No

Dredge water must be treated as process wastewater and therefore, is required to meet discharge limits.
