**Subject:** 2016 proposed 303-d listing of Bear Creek, Big Creek, and Buffalo National River protection.  
**Date:** Tuesday, March 15, 2016 11:47:54 AM

---

I heartily agree with the statements recently issued by the Buffalo National River administration regarding the 303-d listing of Bear Creek, Big Creek and the Buffalo National River, all of which need the protection of 303-d listing. Big Creek is of special concern because of the shamefully permitted construction of the C&H Hog farm on Big Creek's fragile karst drainage system.

Please give your most serious consideration to approving the protective listing for these three important streams.

Ellen Compton
