

3/3/15

AR. Dept. of Environmental Quality  
Water Division, 5301 Northshore Dr.  
North Little Rock, AR 72118-5317

To: Jim Wise: Director Keogh.

The ADEQ is the state's main environmental protection agency: is to  
"protect, enhance & restore the AR environment!"

The National Park Service has requested that three tributaries of the  
Buffalo River be placed on the "Impaired Waterbodies" list.

Since ADEQ has declined to do so in spite of much data  
from the NPS & the USGS, this decision does not  
seem to fit your obligation.

I am requested that the three streams be put on  
the 2016 Impaired list.

If ADEQ does not do the above, I would like  
a clear public explanation be given to the  
people of AR.
