ADEQ

5301 Northshore Dr.

1. Little Rock AR 72118

Dear Director Keogh and Mr. Wise:

I am very concerned that ADEQ appears to be ignoring the National Park Service and the USGS findings that point unequivocally to the need for placing the 3 tributaries on the "Impaired Waterbodies" list.

Please take the courageous path and protect, enhance and restore these beautiful assets that mean so much to Arkansawyers!

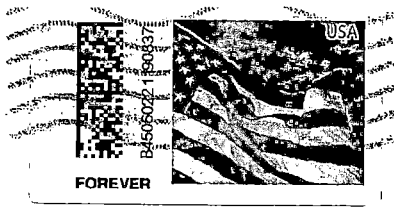

Many thanks for your work in keeping our environment clean and safe for all.

Sincerely,

Nancy Kahanak
