To whom it may concern,

As a lifelong Arkansas resident, I may be slightly partial, but one of my favorite places in the world is the Buffalo River. Since my first float when I was a kid, every trip, every hike, every float, it has cemented itself more as one of the most beautiful parts, not only of this state, but of the earth. And I'm sure, as you may already be experiencing, that I am not alone in my affinity for it.

Please classify the current impairment as a category 5. It is SO important that we get the Buffalo back to healthy as quickly as possible. The preservation of this river is imperative to our state's health, environmentally and fiscally.

Thank you for your consideration,
Becca Davis
