Subject: Big Creek and Buffalo River

Director Keogh,

I am writing to urge ADEQ to change the impaired sections of Big Creek and the Buffalo River to category 5. The source of the impairments, such as increased algae and pathogens must be determined for the good of the region and our state.

The Buffalo River is too valuable to Arkansas to ignore the damage this hog factory has done and will continue to do.

ADEQ should do everything in its power to protect Buffalo River.

Thank you,
Bill Pettit
