Subject: 303(d) Impaired Waterbodies Comments
Date: Sunday, September 9, 2018 4:08:29 PM

Dear ADEQ:

If ever there were an impaired waterbody that merits investigation into the source, surely it is the nations first national river. I believe that Big Creek and the Buffalo should both be designated as "Category 5" to ensure that such an investigation will be made to determine the source of contamination. That way it can be addressed.

This divisive issue has gone on far too long... Arkansans deserve to know!

Sincerely,

Brian A. Thompson
