**Subject:** Comments on Denial of Regulation 5 Permit for C&H Hog Farms  
**Date:** Sunday, September 9, 2018 6:15:46 PM

---

This message is being written to express support of the Department of Environmental Quality's decision to **deny** a new Regulation 5 permit to C&H Hog Farms in the Buffalo River watershed, and to request that Big Creek and the impaired sections of the Buffalo River be included in the Category 5 designations. This facility should never have been allowed in this sensitive area, and all necessary actions should be taken to prevent further contamination.

Please do not hesitate to contact me if I may provide further support in this regard. The Buffalo River is far too valuable a resource for the State and Nation to allow the current polluting activities of C&H to continue.

Thank you for your consideration.
