---

Dear ADEQ:

As an Arkansan, I believe our natural resources are some of our state's most precious assets. Arkansas is very blessed with natural beauty, and the Buffalo River is one of the most beautiful spots in the state attracting visitors from across the state and nation to camp and float and enjoy its natural beauty. The recent contamination of Big Creek and the Buffalo River is a travesty. I believe that Big Creek and the Buffalo River should be designated as "Category 5" to ensure that an investigation will be made to determine the source of contamination. That way it can be addressed. Arkansans need to know.

Sincerely,  
Matt Cleveland
