ADEQ has declared Big Creek and 14 miles of the Buffalo as "impaired". What they won't do is determine the source. Whether you support C&H or not, as citizens of Arkansas we deserve to know what IS polluting our only designated national river. Who knows what it might be if they don't investigate? I hope we can all agree on this. Here is what you can do: Copy this into an e-mail:

Dear ADEQ:

I believe that Big Creek and the Buffalo should be designated as "Category 5" to ensure that an investigation will be made to determine the source of contamination. That way it can be addressed. Arkansans need to know.

Sincerely,
(your name and address)

Melanie Talley Honeycutt
