Subject: 303(d)

Do not place my county's waters on the 303(d) list. I do not believe them to be impaired and have yet to see scientifically uncompromised water test that suggest otherwise. I as the Judge of Newton County do not trust nor accept any testing that has been conducted by individual environmental extremist and ask that you not either.

The state is shelling out tax dollars to conduct a test that is not being utilized fully. We are one of the poorest counties in the state and to hamper the ability of this counties citizens to make a living is going to further impoverish our county.

Thank You

Newton County Judge
