Subject: Public Comment Period on Draft 2018 Assessment
Date: Sunday, November 12, 2017 12:44:16 AM

November 11, 2017

Here are my comments for the Record on the Water Quality Assessment.

Remember these 10 Commandments of Arkansas

1. Arkansas is the Natural State....let's keep it that way.
2. Remember the lesson learned in the Buffalo River Watershed
3. Always pay attention to the Canary in the Coal Mine...eg. CAFO Hog Farms in North Carolina, Iowa
4. Remember your mission statement...protect the Environmental Quality
5. Don't allow out of state companies bring their problems to Arkansas
6. Remember we all live downstream.
7. Remember Air Quality is as important as Water Quality
8. Remember if an application smells fishy....it is probably fishy. "There's a Big Stink on the Buffalo"
9. Your 72 page Draft is worthless if you do not use Common Sense..eg. C&H Hog Farm
10. Remember the citizens of Arkansas are watching you and will throw you out if you don't do the above
